# Devangi Waghela

Web Designer and Developer

514-638-1781 | waghelabhumi@email.com | [www.linkedin.com/wagheladevangi](www.linkedin.com/wagheladevangi) | Montreal QC, CA

## Professional Summary

Dedicated Web Developer with over 4 years of experience in designing, developing, and optimizing user-focused websites and web applications. Skilled in a variety of programming languages, frameworks, and tools, with proficiency in both front-end and back-end development. Demonstrated ability to transform client requirements into interactive and scalable web solutions.

- Expertise in core web technologies including HTML, CSS, JavaScript, and responsive web design.
- Proficient in using frameworks and libraries such as React, Vue, and Angular.
- Solid experience in back-end development using technologies like Node.js, PHP, and database management with SQL and NoSQL databases.
- Familiar with modern development tools, version control systems like Git, and collaborative platforms like GitHub and Bitbucket.
- Strong emphasis on optimizing performance, ensuring cross-browser compatibility, and implementing SEO best practices.
- Experienced in all phases of the web development life cycle, from conceptualization to deployment and maintenance.
- Collaborative team player, accustomed to working with designers, QA engineers, and project managers to achieve project milestones.
- Continuously updating skills to match the rapid evolution of web technologies, with a commitment to creating intuitive and dynamic user experiences.

## Skills

**Front-End Web Development:** HTML5, CSS3, JavaScript (ES6+), React, Vue.js, Angular, Bootstrap, jQuery
**UI/UX Design Tools:** Adobe XD, Figma, Sketch, Adobe Illustrator, Canva, Adobe After Effects
**Cloud Computing:** Microsoft Azure
**Programming & Backend:** Python, C#, PHP
**Testing & Debugging:** Jest, Debugging Methods
**API Development:** Django REST, Express.js
**Version Control:** GitHub, GitLab, Bitbucket
**Backup & Recovery:** Strategies, Disaster Recovery Planning
**ITIL Framework:** Incident, Change, Service Desk
**Documentation:** Writing, MS Excel, Reports
**Collaboration Tools:** Microsoft Teams, Slack
**Customer Service:** Communication, Problem Solving, Training
**Database Management:** MySQL, Django ORM
**Project Management:** JIRA, Confluence, Scrum
**Data & SEO:** Google Analytics, Insights, SEO
**Soft Skills:** Collaboration, Adaptability, Communication, Workflow
**Social Media Management:** Instagram, Twitter, Facebook, YouTube, Branding, Content, Campaigns, Analysis

## Work Experience

**Freelancing Web Developer and Social Media Manager**                                     **Feb 2021 – Present**
Local Businesses, India

**Responsibilities:**

- Conceptualized and implemented intuitive user interfaces, leveraging tools like **Figma** and **Adobe XD** to create wireframes, **mock-ups**, and interactive prototypes tailored to client requirements.
  Developed and optimized responsive websites using technologies such as **HTML5, CSS3, JavaScript, React**, and **Vue.js**, ensuring cross-browser compatibility and mobile optimization.
- Integrated dynamic animations and interactive elements using **JavaScript, jQuery**, and libraries like **GSAP**, enhancing user engagement and experience.
- Integrated and customized **content management systems** (CMS) like **WordPress** and **Joomla** to provide clients with user-friendly platforms for content updates.

Designed and curated visually cohesive branding materials and posts for social media platforms (Instagram, twitter, Facebook, YouTube), ensuring consistency across all digital touchpoints.
- Planned and executed data-driven social media campaigns, leveraging platform-specific algorithms and ad systems to maximize reach and engagement.
- Implemented best practices in **SEO** and utilized tools like Google Analytics to monitor website traffic, while analysing social media performance metrics to refine strategies.
- Collaborated closely with clients to gather feedback, making iterative changes to web designs and social media campaigns for continuous improvement.

**Environment**: Figma, Adobe XD, HTML5, CSS3, JavaScript, React, Vue.js, jQuery, GSAP, WordPress, Joomla, Canva, Google Analytics

### Python Django Intern                                                  Feb 2021 - Nov 2021
Mexgen Technologies, India

**Responsibilities:**
- Assisted in the development and deployment of scalable web applications using the **Django** framework.
- Wrote efficient **Python** middleware components to optimize performance and ensure seamless session management.
- Designed and maintained databases with **Django ORM** emphasizing advanced queries and data integrity.
- Developed dynamic user interfaces with interactive elements, utilizing tools like **Bootstrap** and **jQuery**.
- Collaborated on **RESTful API** design and implementation using **Django Rest Framework**, focusing on serializers and routers.
- Integrated **Memcached** for caching, enhancing application speed and reducing server load..
- Managed code versions using **Git**, collaborated via repositories, and emphasized security measures including **CSRF protection**.

**Environment**: Webpack for module bundling, Docker for containerization, CircleCI for continuous integration, Heroku for deployment.

### Dot Net Developer                                                     June 2018 - Dec 2020
3D Web Solution, India

**Responsibilities:**
- Developed robust **ASP.NET MVC** and **Web API** applications, seamlessly integrating with different platforms.
- Leveraged **C#** for backend logic and used **ASP.NET** to optimize web components, ensuring user-friendly interfaces.
- Designed and maintained **SQL Server databases**, focusing on efficient stored procedures and data migration from legacy systems.
- Enhanced UI/UX using frameworks like **Bootstrap** and **jQuery**, while optimizing interactions through **AJAX** and responsive designs.
- Implemented **Entity Framework** for ORM operations, crafted **LINQ** queries, and engaged in third-party **API** integrations.
- Adopted rigorous testing using **NUnit** and collaborated with support teams to ensure optimal application performance.
- Utilized **Web Services** for expanded functionality and ensured smooth data interactions with **JSON** and **XML**.

**Environment**: ASP.NET MVC, ASP.NET Core, C#, SQL Server, Entity Framework, AJAX, jQuery, Bootstrap, Web API, RESTful services, LINQ, NUnit, Visual Studio, GitHub, Jenkins, .NET Framework, JSON, XML.

## Certification
- **Responsive Web Designer (FreeCodeCamp)**
- **Data Visualisation (FreeCodeCamp)**
- **Microsoft Azure (az900)**

## Education
- **CDI College, Cananda,2023 -** Web Designer and developer specialisation
- **Gujarat Technical University, India , 2017 -** Bachelors in Computer Science Engineering
